SUBJECT
OPERATIONS CHIEF REPORT FOR 080620

On 080620 I was assigned as the Operations Chief for events in Portland.

At 1937 a group of 50-75 arrived at SE Precinct to protest in the street. They stayed for a few minutes, and moved off to the west at 1946. The group walled by the precinct again later, but did not stop. No disturbances or vandalisms were reported with this group.

At 2100 the group at Floyd Light was about 150. By 2132 the group had grown to 250. At 2142 the group, now about 300 people, move onto 106th in front of East Precinct. Immediately sound truck announcements went out advising the crowd we believed they were there for criminal behavior, and those that wanted to be peaceful should separate themselves.

At 2150 the group had damaged two of the cameras at the precinct, and were throwing paint all over the front of the building,

At 2152 the sound truck gave announcements that it was an unlawful assembly and directed people to leave tot he north. Some in the crowd pointed lasers at the sound truck during the announcements.

At 2200 a trash can near the building was set on fire. At 2203 lasers were directed at officers again. At 2205 more unlawful assembly announcements were given by the sound truck. A elderly woman tried to put the fire out with an extinguisher, but the crowd moved her away fro the fire. She left the area shortly after. Another woman had paint thrown on her by members of the crowd when she was trying to prevent them from damaging the building.

At 2218 a person was trying to light the plywood on fire using something from a spray can as an accelerant. Ground units were sent in to move the crowd away from the building. At 2222 bottles and other projectiles were thrown at the officers. East officer were able to extinguish the fire at 2224. At 2226 more projectiles were thrown as the crowd was moved east on Stark. Also at 2226 a member of the crowd put a spike type device under the sound truck causing the tire to go flat. This person was arrested a short time later. At 2230 the push stopped at 113/Stark as the crowd filtered into Ventura park. At 2234 ground units reported more paint balloons and lasers being directed as officers. At 2236 ground unit disengaged and had a large volley of projectiles thrown at them as they tried to leave.

At 2238 the crowd was address again as a custody was taken. Due to the volume of projectiles, smoke was deployed to keep the crowd back. At 2244 ground units disengaged again, and the crowd immediately started moving west on Stark again.

At 2300 ground units re-engaged the crowd and pushed them to the west on Stark. More paint balloons and projectiles were reported. More projectiles were reported at 2302. At 2304 another patrol car had a tire popped from the spike device laid out

by a protester. At 2306 the push stopped briefly at 102/Pine. OSP held that location while Delta continued moving the crowd until they stopped at 97/Ankeny at 2311. Both squads disengaged at 2313.

At 2327 about 125 people had gathered again at 103/Washington. At 2335 a few mortars were launched by members of the crowd. At 2339 the group started moving East on Washington. At 2341 ground units re-engaged and moved the group back west on Washington. They immediately had projectiles, paint balloons and green smoke bombs thrown at them. By 2344 the group moved into the Mall 205 lot and moved southwest around the Target. The push stopped near the Target at 2348. At 2350 RRT/MRT disengaged, and the MFF's stayed to disperse the crowd while mobile in their vehicles.

At 2354 more custodies were taken in front of East Precinct.

At 0006 about 80 people were moving east on Washington at about 105. At 0013 ground units made another push north on 106 as the group came towards them from Washington. More projectiles were thrown at the officers. At 0018 a rock hit an officer in the head, but the officer was found to be uninjured. At 0025 more projectiles were thrown as the ground units disengaged.

At 0036 the sound truck gave announcements that all of 106 was closed between Cherry Blossom and Washington, and it included members of the "Press". A mortar was launched at 0037 and another at 0045

At 0048 ground units engaged again and the crowd moved back to 106/Washington. Ground units disengaged and took more projectiles as they left at 0056.

More announcements about the street being closed were given at 0110. At 0129 another custody was taken in front of East. At 0130 another push north on 106th to Washington occurred. An officer was hit with a large rock and was injured during the push. Ground unit disengaged again at 0136.

At 0200 a movement for custodies occurred and several custodies were taken. Ground units disengaged again at 0228.

At this point the crowd had dispersed enough that we were able to Demob the ground units.

SUBJECT
SOUND TRUCK

Day 71 - On August 6, 2020 I was assigned to the sound truck as the scribe. Officer Dauchy #30873 was the driver and Sgt. Yakots #48158 was the announcer.

At 2143 the sound truck was parked on Southeast 106th Avenue facing south just south of Southeast Washington Street. Sgt. Yakots announced 3 times:

"This is the Portland Police. We believe your intention is to vandalize or attempt to burn down East Precinct. If you attempt to break into or burn East Precinct you will be subject to arrest and use of force to include crowd control munitions."

At 2151 the sound truck was parked at the same location still facing south bound and Sgt. Yakots announced 3 times:

"This is the Portland Police Bureau.

To those outside East Precinct: This gathering has been declared an unlawful assembly. All persons near East Precinct need to leave by traveling to the north, travel to the north. You are ordered to disperse immediately. Failure to comply with this order may subject you to citation or arrest, and may subject you to the use of crowd control agents and or impact weapons."

While the announcements were being given persons in the group directed green lasers towards the sound truck and our eyes.

At 2204 the sound truck was parked at the same location still facing south bound and Sgt. Yakots announced 2 times:

"This is the Portland Police Bureau. To those outside East Precinct: This gathering has been declared an unlawful assembly.

All persons near East Precinct need to leave by traveling to the north, travel to the north. You are ordered to disperse immediately. Failure to comply with this order may subject you to citation or arrest, and may subject you to the use of crowd control agents and or impact weapons."

At 2209 the sound truck was parked at the same location still facing south bound and Sgt. Yakots announced twice:

"This is the Portland Police Bureau. To those outside East Precinct: This gathering has been declared an unlawful assembly.All persons near East Precinct need to leave by traveling to the north, travel to the north. You are ordered to disperse immediately. Failure to comply with this order may subject you to citation or arrest, and may subject you to the use of crowd control agents and or impact weapons."

While the message was being announced green lasers were pointed towards the sound truck and our eyes.

At 2220 the sound truck was on Southeast 106th Avenue, facing north bound, just north of Cherry Blossom Drive Sgt. Yakots announced 3 times:

"Disperse to the north, move now to the north."

At 2224 the sound truck was facing east in the Floyd Light Middle School parking lot. Sgt. Yakots announced 3 times:

"Disperse from the area now, move east now, disperse from the area, this is an unlawful assembly, you are subject to arrest and use of force."

At 2227 the sound truck was facing east bound on Southeast Washington Street at about 109th Avenue. Sgt. Yakots announced 3 times:

"Continue to disperse from the area, move to the east, move east now."

Just as Sgt. Yakots concluded with those announcements I observed a female on the passenger side of the sound truck. She was walking very close to the front end of the vehicle by the front wheel. I observed her right arm make a swinging motion towards the sound truck and then our front passenger tire popped. I then observed her run away from the sound truck to the south. I had a clear view of her and put her description out over the air. She was a female who was white, about 5' 5", heavy set, and brown hair. She was wearing a long sleeved blue shirt, short black shorts, and had a black backpack. In the sound truck front passenger side tire was is known to be a "caltrop", bent rebar that is welled into a sharp of a star and the ends are sharpened. There were three other caltrops around the sound truck tires. I took photos of the caltrops and the popped tire and put them in DIMS. For further on this incident see case number #20-68108.

At 2340 the sound truck was facing westbound and driving west bound on Southeast Washington Street. Sgt. Yakots announced 4 times:

"This is still an unlawful assembly, move west, disperse from the area you are subject to arrest and or citation, and or force disperse from the area now.

At 2344 the sound truck was facing driving west bound in the Mall 205 parking lot Sgt. Yakots announced 6 times:

"Disperse from the area, leave the area now."

At 2355 the sound truck was facing north bound on Southeast 106th Avenue in front of East Precinct. Sgt Yakots announced 2 times:

"Officers are taking lawful action, remain on the sidewalk, get back on the sidewalk, do not interfere with the officers."

At 0012 the sound truck was facing north bound on Southeast 106th Avenue in front of East Sgt. Yakots announced 7 times:

"This is still an unlawful assembly you need to move to the north disperse to the north now. Frailer to disperse to the north could subject you to arrest or citation impact munition, and other force options, move north move north.

At 0017 the sound truck was facing north bound on Southeast 106th Avenue just south of Southeast Washington Street. Sgt. Yakots announced 4 times:

"This is still an unlawful assembly you need to move to the north, disperses to the north now. Remain on the sidewalk, stay out of the street. You could subject you to arrest or citation, impact munition, and other force options, move north now."

At 0034 the sound truck was facing north bound on Southeast 106th Avenue in front of East Precinct Sgt. Yakots announced 5times:

"This is the Portland police bureau, under the authority 14c.30.010 titled authority restrict access to certain areas, we are closing Southeast 106th Avenue from Washington Street to Cherry Blossom. Any persons including members of the press who violate this order will be subject to arrest."

"To reiterate this order applies to the press, everyone must leave the area on 106th Avenue from Washington Street to Cherry Blossom now."

While we were making these announcements the group was flashing bright white lights at the sound truck and

Set off a mortar.

At 0052 the sound truck was facing north bound on Southeast 106th Avenue Just south of Southeast Washington Street Sgt. Yakots announced 2 times:

"This is the Portland police bureau, under the authority 14c.30.010 titled authority restrict access to certain areas, we are closing Southeast 106th Avenue from Washington Street to Cherry Blossom. Any persons including members of the press who violate this order will be subject to arrest."

At 0010 the sound truck was facing north bound on Southeast 106th Avenue Just south of Southeast Washington Street Sgt. Yakots announced 2 times:

"This is the Portland police bureau, under the authority 14c.30.010 titled authority restrict access to certain areas, we are closing Southeast 106th Avenue from Washington Street to Cherry Blossom. Any persons including members of the press who violate this order will be subject to arrest."

At 0030 the sound truck was facing north bound on Southeast 106th Avenue Just south of Southeast Washington Street Sgt. Yakots announced 2 times:

"This is the Portland police bureau, under the authority 14c.30.010 titled authority restrict access to certain areas, we are closing Southeast 106th Avenue from Washington Street to Cherry Blossom. Any persons including members of the press who violate this order will be subject to arrest."

"Officers are taking lawful action, do not interfere."

When the announcements were being given the group was flashing bright white lights at the sound truck and large rocks were being thrown at officers.

At 0200 the sound truck was facing north bound on Southeast 106th Avenue Just south of Southeast Washington Street Sgt. Yakots announced 2 times:

"As a reminder 106th Avenue is closed leave the area"

This was the last announcement of the night.

SUBJECT
PROBLEMS WITH THE PRESS

On August 7, 2020, I was working as a line officer on RRT. The event had been declared an unlawful assembly at approximately 2153. The unlawful assembly was declared after the crowd again set fires at the doors of East Precinct, blocked traffic with cars, , and painted over security cameras. While dispersing the crowd, the large number of press had been told multiple times to stay on the sidewalk, stay out of the street, and not interfere with police. The press is told this every night, and very often do not listen.

After pushing the crowd away, RRT had returned to East Precinct to see if the crowd would disperse with less police presence near them. While sitting on the rails, I noticed a white male filming us from the street. He was later identified as Michael Lincoln. I told Lincoln to stay on the sidewalk, and get out of the street. He did not. I told him again, and he remained in the street. Lincoln did not go back onto the sidewalk until Ofc. Lehman and I walked over toward him.

After we sat down on the rails again, I saw Lincoln go back out into the street. I noticed one of the cars going by slowed to make sure they would not hit him. I told Lincoln again to get out of the street, and stay on the sidewalk. He did not. Ofc. Lehman and I went over to address this behavior. Lincoln tried to walk away despite orders not to. I took hold of Lincoln's right arm, and walked him back over to our van. Ofc. Lehman had a hold of Lincoln's left arm.

Lincoln said he was press. I do not remember seeing anything on him saying "Press" or any press credentials.

Ofc. Lehman explained to him he was not free to go, as we were investigating him for the Disorderly Conduct we had just observed. Lincoln did not have ID on him. I was able to confirm the information he provided for his CA drivers license, but there was no picture of Lincoln in the system. At this point we released Lincoln, and told him to stay out of the street.

Nothing further.

SUBJECT
PROBLEMS WITH LEGAL OBSERVER

On August 7, 2020, I was working as a line officer on RRT. The event had been declared an unlawful assembly at approximately 2153. The unlawful assembly was declared after the crowd again set fires at the doors of East Precinct, blocked traffic with cars, and painted over security cameras. They also threw multiple projectiles at officers once we deployed to disperse the crowd.

On one push West along Pine St, there were three people in front of me with neon green "National Lawyers Guild" hats on, who typically operate as legal observers. They were moving significantly slower than the crowd of people moving away from us on Pine. There was not a sidewalk on this portion of the street. I told them to move faster, as they were in our way and interfering with my ability to do my job. They did not move faster or move to the side, as I heard another officer suggest to them.

In order to keep them from getting behind our line, I put my hand against the back of a white female with curly hair, wearing a black purse/backpack, the aforementioned green hat, and glasses. I put my hand there so that I would be able to keep an arms length of space between her and myself. At the speed she was moving if I had not done so I would have ended up walking with my chest against her back.

I continued telling her to please speed up or move to the side. She did neither. I told her her actions were interfering with my ability to do my job. She did not change her behavior. As we moved farther down the street, the side of the road turned into a grassy area with jersey barriers delineating the street from the pseudo-sidewalk area. I told her to move onto the grass. She did not. I took hold of her backpack strap and guided her onto the grass. She moved back out in front of me, onto the street.

At this point another officer who I could not recognize took hold of the same straps and moved her behind the line. I heard him tell her to stay farther behind us since she could not walk quickly. I heard him tell the female not to get close to our backs. I turned and saw she had sped up to get right in the face of another officer, who had to turn and address her. I heard that officer explain she was interfering again. I saw her continue walking quickly to stay chest-to-chest with the officer walking backward to keep her off the backs of the other RRT line officers.

This behavior does not seem to match the stated purpose of legal observers. This female was clearly interfering with the police line, slowing us down as we tried to address a group of violent individuals who had thrown multiple projectiles at officers. Her behavior was even more clearly interfering when she sped up to get as close as possible to officers backs. This is a safety issue, as it means officers have to keep their eyes on threats in front of them, and behind them.

I was not able to identify this female at this time. Nothing further.

SUBJECT
PROBLEMS WITH LAWYERS GUILD

On the evening of 8/6/20 to the morning of 8/7/20 I was working in my capacity as an RRT Officer and assigned to Delta Squad. Delta Squad was charged with managing a protest of around 250-300 protesters that had gathered outside of East Precinct. The Protesters had blocked traffic on SE 106th Avenue preventing cars from coming and going. Soon the protesters began to spray paint the walls of East Precinct and throw paint on the walls. The protesters set a trash can on fire that was in front of East and eventually attempted to set the north side of the building on fire.

Around 2153 hours, the assembly was declared unlawful and the sound truck gave orders and use of force warnings to the protesters to go home. As myself and other Officer managed the crowd, we took multiple projectiles including rocks, paint balloons, water bottles, and other hard objects. Protesters in the crowd shined lasers in our eyes.

Around 0032 the sound truck announced at least 5 times that the area including the sidewalks and street on SE 106th Avenue between SE Cherry Blossom Road and SE Washington Street was closed under city ordinance 14C.30.010. The sound truck announced that if anyone violated the ordinance they would be subject to the use of force and arrest. The sound truck continued to give warnings and orders through out the night.

Around 2310 my team and I were pushing a group of protesters west bound SE Pine Street just west of SE 102nd Avenue. While pushing the group, two female wearing green hats began walking in front of me in the street. I was towards the north end of the street, but there was a gravel shoulder that was on the north side of the street that the females could have walked on. The females walked directly in front of me and began to slow down in a clear effort to slow our movement and get in our way. I placed my hand on one of the females back and advised her to get out of the street and get out of our way. The female told me that I could not touch her and that she could stand were she wanted to.

Another Officer advised her that she was not allowed to commit crimes. The two females than walked over to Officer Flohr and stood in front of her. See her report for more details.

I did not use any force on the females.

SUBJECT
PROTEST

On Thursday August 6, 2020, I was assigned to Delta Squad for the Portland Police Bureau's Rapid Response Team (RRT). RRT mainly specialized in crowd control. Delta Squad was a "hard squad" who were officers with full personal protective equipment. Our squad was accompanied by Oregon State Police Mobile Response Team and Mobile Field Forces from North Precinct and East Precinct. The protests started over two months ago based on the George Floyd incident but since, anarchists took over the social platform.

Daily, anarchists vandalized property by spray painting buildings, broke out glass windows, set fires, and assaulted people that did not have the same belief as them. They did not believe in the police system and wished it was completely gone. When police officers were present, they would target the officers with rocks, glass bottles, bottles filled with unknown liquids,

balloons with unknown substances, projectile fireworks, and lasers. Majority of the protesters were dressed in all black. Some were armed with hand-made shields, wore gas masks, and hard helmets. Some had "A-C-A-B" which was short for "All Cops are Bastards."

At approximately 10:20 PM, the event was declared an unlawful assembly. Protesters lit garbage cans on fire that were set in front of East Precinct (737 SE 106th). They blocked all of SE 106th between SE Washington and SE Cherry Blossom. At one point, an elderly female with a walker came to put out the fire but protesters doused her in paint and made her go aside. Eventually, they tried to light the plywood attached to the front door on fire, which was why the event was declared an unlawful assembly. We dispersed the crowd to the north, then to the east.

During the dispersal, a white male in his 30s, black shirt, black helmet, gray pants, black shield continuously shined a bright flashlight in officers' eyes. He claimed he was press and continuously got between our police line. He would approach me and taunt with his shield by lunging forward. Due to the crowd dynamic, I felt it was more appropriate to move him rather then arrest.

He came about one feet away from me with the light on strobe function and lunged at me with the shield. I guided him back with my baton and when I had the opportunity, I grabbed his shield which he quickly dropped. I moved forward with the push.

Throughout the night, we would disperse the crowd of protesters but would get objects thrown from behind. It was clear that everyone behind us was so called "Press" members. Multiple officers mentioned they saw Press threw projectiles at us.

Nothing further.

SUBJECT
USE OF LAUNCHABLE SMOKE 40MM

The event on 8/6/2020 was declared an unlawful assembly. The EOC directed RRT to disperse the crowd east. Multiple hostile people were in the middle of the street. They had a "shield wall" and some attempted to advance towards us. People in the crowd threw large rocks, eggs, and paint balloons at officers. Some physically resisted and fought with officers.

At approximately 2230 hrs on SE Stark St/SE 111th Ave, I deployed a single 40mm none-irritant launchable smoke to provide a smoke screen in front of RRT, effectively providing officers concealment from the hostile individuals throwing projectiles at us. I aimed away from the crowd and into the sky at a 50 to 65 degree angle. I saw the smoke round arch and dispense it's contents on the ground away from the crowd.

SUBJECT
SUBJECT CONTACT

During our RRT deployment to East precinct, I was attempting to keep a crowd of people out of the street while other officers were making an arrest. At this time I came into contact with an unidentified Asian female. She was wearing a black tank top, blue biking shorts, a white helmet, and an orange cardigan. She was walking a bicycle and repeatedly stood in the road and approached our line.

I approached her and told her to move back. She refused. I guided her back by placing my left hand on her shoulder and she immediately grabbed my left wrist. I pulled my hand back and she began to move away quickly. I reached for her a second time and grabbed the front of her tank top in an attempt to stop her from leaving and take her into custody. This caused her shirt to rip and she moved back onto the sidewalk. She was not identified or taken into custody at this time.

SUBJECT
NARRATIVE

On August 6, 2020 we had received information that there was a group of about 300 protesters congregated in front of the main entry doors of East Precinct. We had received information over the air that the group of protesters were completely blocking SE 106th ave in both directions. We had also received information stating that protesters in the group were dressed in typical "Black Bloc" attire which consists off all black clothing, masks, helmets, gas masks and other items used for the purpose of maintaining anonymity. This type of "uniform" is also extremely common among Antifa members and sympathizers. We had learned that there were protesters in the crowd spray painting cameras on the front of East Precinct, which is a common tactic used to prevent us from identifying agitators who are engaged in criminal activity. In addition they were spray painting graffiti on the side of the building and starting fires in the garbage can positioned in front of the building. In addition there were subjects dumping whole cans of paint on the side of the precinct. At one point a couple elderly ladies had attempted to intervene and prevent the protesters from defacing the building but protesters had dumped paint on one of them and had physically pulled the other one away from the building. It was very apparent that these people were not peacefully protesting. They were there to damage and destroy police bureau property.

As we remained staged out of sight we were advised that one subject was attempting to light the plywood on the side of the building on fire. For weeks now protesters have been chanting and making efforts to burn down our police precincts and facilities and this night did not appear to be any different. Tonight there were officers inside the building so it created an emergency situation for the building to be lit on fire. Prior to RRT deploying several announcements from the sound truck had been given declaring an "unlawful assembly" which included dispersal orders and force warnings. In response to the warnings from the sound truck it did not appear that anybody left the area.

Prior to engaging the crowd at all tonight we were staged away from the area when we heard there were about 300 protesters in front of East Precinct. Just yesterday protesters had made efforts to barricade East Precinct and burn it with officers inside the building. In addition, thousands of dollars of damage was done to the building. When we heard the report tonight of the protesters gathering back at East precinct we moved closer so we could respond in the event that the building was set on fire. While doing so we heard over the radio that there were a couple of elderly people attempting to stop the destruction but their voices and actions were silenced by agitators in the crowd and one of the elderly women had paint dumped on her. In addition, a few moments later we were notified that a subject was attempting to light the plywood on the building on fire so we deployed to the area to move the crowd.

As we came into the area I observed the protesters standing in the street blocking the entirety of the roadway. In addition to the protesters there was a large Mercedes van which we know as the "snack wagon" that was positioned at the rear of the crowd of protesters. It has been out among the protests for weeks and is a supply vehicle for the protesters. I have observed that it also frequently attempts to position itself between us and the protesters to create a physical barrier as the protesters move through the street. This was the case tonight as the crowd began to disperse to the north on SE 106th avenue and then turned eastbound into the parking lot. However, as the protesters turned into the lot to flee from the police I observed as the vehicle followed them.

As we were moving the protesters we caught up to the truck and some officers had moved past the vehicle to continue moving the protesters eastbound through the Floyd Light Middle School parking lot. Seeing the hazard this created for us by having the unknown risk support vehicle behind line officers I knocked on the driver side window of the vehicle and ordered the driver to stop so we could move past it. The intent was to allow us to move past the van and separate the van from the protesters because it was a support vehicle which frequently supplied the protesters with various items. It would also frequently position itself between us and the protesters as it had done for the last several weeks. However, when I knocked on the window and told the driver to stop he instead accelerated rapidly towards the crowd and refused to obey the lawful order I had given him. I observed that the van was also surging towards the crowd as it accelerated. Due to the dynamic nature of the situation I ran after the van on foot and punctured the sidewall of the left front tire of the vehicle , deflating it immediately. I then quickly deflated the left rear tire in the same fashion. Believing the van would continue to try to stay with the crowd despite the flat tires I also deflated the passenger side tires. At the time I did not have access to spike strips because they were on top of the RRT van a couple of blocks behind us. Also, I have seen from experience that spike strips are ineffective at slow speeds because vehicles just roll over the top of the spikes rather than deflating the tires. Spike strips also take more than 30 seconds to deflate and we needed the vehicle tires to be deflated immediately. After the tires were flattened we moved past the vehicle and it was later towed.

Nothing further at this time.

SUBJECT
RRT PROTEST

I was working in Delta squad as a grenadier. Delta squad was responding to a protest at East Precinct. The previous night protesters lit a fire in a dumpster at East precincts main door attempting to light the building on fire. The protest on this night had been declared an unlawful assembly. Protesters were vandalizing public property and lighting fires in dumpsters.

Delta squad was tasked with dispersing the crowd to the north away from east precinct, then to the east from SE 106/ Washington. Protesters were throwing projectiles at police lines to include, rocks, water bottles, eggs, paint filled balloons, apples. Delta squad dispersed the crowd to Ventura park around SE 114/ Stark. As Delta squad was moving back to the vehicle to leave the area around 2246 the crowd began to close back in on our squad. The crowd began to engage in active aggression by throwing projectiles at Delta squad. This has been becoming more dangerous for officers/medics as they are getting struck with various projectiles on the back of the vehicle while waiting to load up and move.

I launched one smoke munition towards the crowd to help disperse the crowd allowing a safer retro grade of Delta squad. The munition landed in the intended location. The crowd did move back from our vehicle and Delta squad left the area. I am not aware of any injuries. I have noticed more hard rock type projectiles being thrown at the officers/medics on the back of our vehicles when we are trying leave an area.

SUBJECT
SMOKE MUNITION DEPLOYMENT

On Thursday 08/06/20 I was working as an A/Squad Leader for RRT Delta Squad. At about 2145 hours large crowd of 250+ had gathered in front of East Precinct blocking streets in coordination with motorcycles and vehicles. This was the same crowd who had tried to enter the Precinct and start a fire inside the night before.

Members of this crowd were wearing gas masks, carrying home made shields, wearing protective body armor, and helmets and appeared prepared for a confrontation.

RRT Delta was staged out of sight and away from the crowd prepared to respond to life and safety emergencies.

The crowd began to start fires in trash cans near the front entrance and began spray painting the building and security cameras. Members of this crowd threw paint on an elderly female who was trying to prevent the vandalism to the precinct. Members of this crowd poured a clear gel like liquid in front of the entrance of the precinct as well. Several PPB Sound truck warnings were given to try and de-escalate and stop the criminal behavior amongst the crowd members but it did not stop it.

When a member of the crowd began to use an accelerant on the plywood covering of the precinct windows to try to again start the Precinct on fire, The IC declared the gathering and unlawful assembly at 2220 hours and Delta Squad responded to the precinct to move the crowd.

During our movement of the crowd several members in this crowd were throwing items such as bottles of liquid, rocks, and paint projectiles. Members of this crowd used home made devices to pop the tires of police vehicles.

After moving this crowd 4 or so blocks Delta squad disengaged. As we did so we took more projectiles as we were loading up and leaving.

While RRT was leaving we noticed a traffic unit and other officers were taking a subject involved in criminal behavior into custody. This subject was believed to be involved in trying to pop the tires of police vehicles. As Officers were taking

the male into custody and doing an inventory the crowd began to come toward the custody to interfere. Delta squad assisted by making line formation to separate the crowd from the custody. This was necessary for the Officers safety while conducting the arrest and investigation. While on the line formation several rocks were thrown at Officers on the line. I saw these rocks come close to hitting Officers in the head. I myself was hit in the head with a golf ball size rock from the area of the street where members were standing with "press" written on their clothing and helmets. I could not tell if a member of this "press group" threw the projectile or if a member of the crowd who threw the rock was hiding behind them. The projectiles being thrown at Officers on the line could have caused serious injury and I believed it was a safety issue. I deployed 1 hand tossed triple chaser smoke canister (non force) in the are where the projectile had come from. I did this to stop the members of the crowd from throwing the projectiles and to hopefully provide Officers with some cover. I also believed that members of the crowd may move back from the Officers on the line and create some distance so that items could not be thrown. I tossed the smoke canisters about 20 feet away and within 5 feet of some members believed to be near where the item was thrown from.

RRT continued to deal with this crowd and make arrests throughout the night. I did not use any force.

Nothing further.

SUBJECT
LAUNCHABLE SMOKE

on the night of August 6th, at approximately 2300 hours I deployed two canisters of launchable smoke to deter a crowd that was continuously advancing on our line formation and throwing a barrage of projectiles at us as we were attempting to leave the area on our vehicle.

The smoke was effective, and necessary, to allow us to safely leave the area without being further assaulted by the violent mob.

Nothing further at this time.

SUBJECT
OFFICER OBSERVATIONS

On the operational period starting on Thursday 08/06/2020, I made several observations regarding the protesters that were not related to my FDCR. This report is to document those observations within the crowd of protesters.

During our first dispersal east on SE Washington St from SE 106th Ave, we held in the area of Ventura Park. During the path of travel, I observed multiple objects being thrown at Officers from the back of the crowd of protesters. One item that was directed towards me and made contact was a reddish brown object the size of an egg. I was uncertain what the item was as we continued to walk east. I did not have time to investigate the object. During the previous 70 days, multiple objects have been thrown at Officers that exploded upon contact, to include paint, egg, and other unknown substances. There have also been several rigid objects launched at Officers.

When we held stationary at the park, I observed multiple subjects with green lasers further north and east in the park, but part of the group of protesters. They directed the lasers at Officers' face shields. I believe this was an attempt to shine it in their eyes to cause interference with sight, general annoyance, and/or damage to Officers' eyes. The tactic of green lasers pointed at Officers was done during rioting in Hong Kong and has since been observed in Portland, OR. I have worked several marches, rallies, protests, gatherings, assemblies, and riots without the use of green lasers by agitators. This is a newer tactic that was not previously observed in my six years on the team. The agitators were most aggressive with the lasers while we were trying to leave the area of the park.

As we began to leave the area, Officers had probable cause to arrest a specific female subject, to the west of the park. While Officers made contact with her, our squad formed a line in front of the property so the Officers could safely operate as the crowd began to converge on this new activity. The first individuals who began to converge were predominantly self identified "press". While holding this line, an Officer had utilized a munition that landed in the street, near the north curbline. Officers told the "press" who were near the canister, that was actively emitting white smoke, to not touch it. This order was given both for their safety as well as ours. I observed one white female with brown hair, who was self-identified "press" move her cell phone to within 1' of the canister which was smoking. It appeared she was filming, live streaming, or taking photographs. She had not touched it at that time, but refused to provide a safe distance from the object. After the munition was no longer emitting smoke, an Officer told her not to touch the spent canister as she looked at it closer. She was advised the object would be hot. I know from my training and experience that the canisters are extremely hot and I have also observed protesters pick up the spent munition and launch it at Officers. I watched this female, who was self-identified "press", pick up the munition, immediately drop it on the sidewalk, and begin to shake her hand, which indicated to me the munition was still extremely hot. I believed this "press" person would have heard all the orders to not touch it because she had looked in our direction after advising her several times to not disturb the object.

After the spent munition was on the sidewalk where the female "press" dropped it, I observed another self-identified "press" member walk over to it and nudge it with his foot as if he was further looking at the object. This was a tall white male in all black who joined the area where all the "press" had gathered. All of the other "press" members were able to follow the directions and not further disturb the object. Due to the inability of the self-identified "press" members to refrain from disturbing the object they had been advised multiple times to leave alone, Officer Westerlund and I walked into the group and

removed it from their reach. The spent canister was still extremely warm and was not able to be handled for an extended period of time, even with gloves on.

Our squad left the area and disengaged with the crowd at approximately 2246 hours.

At approximately 0038 hours, the sound truck had provided an announcement that SE 106th Ave was closed from SE Cherry Blossom Dr to SE Washington St per City Ordinance 14C.30.010, "Authority to Restrict Access to Certain Areas". Under this ordinance the sidewalks were also closed and all individuals were required to leave the area, including self-identified "press".

Our squad moved northbound on SE 106th Ave and held at the intersection of SE Washington St after clearing the area. A group of approximately 10-15 self-identified "press" were on the southwest sidewalk of this intersection, which is where I was located. There were other protesters and self-identified "press" on all other corners as well. Many of the "press" members at the corner where I stood tried to argue they were exempt via the temporary restraining order. They were advised that was not applicable related to this order and further issues related to such could be discussed in court. Most of the press members on this corner continued to perform their actions without further issue. One male, possibly Hispanic, with a white and gray goatee, in his 40-50s, wearing a white hard hat, green/khaki cargo style pants, "PRESS" marked on his person, a red strap or similar around his neck that appeard to be attached to a brace or camera continued to contest he did not believe the ordinance applied. He had to be told several times to get back on the sidewalk as he would remain in the marked crosswalk, regardless of the pedestrian signal's color. This male made sure to verbalize both Officer Giles and my personnel numbers on our uniforms into his device. I am not certain if the material was being livestreamed or recorded to be used to later. It should be noted that I saw this same "press" subject several times later in the evening as we readdressed protesters who refused to follow the closure of the ordinance. He engaged in the same conversation and tactics of not staying on the sidewalk each time. I believe he heard the original order and the additional sound truck announcements as he continued to attempt conversation related to the ordinance. I also observed him being mobile in the area and physically able to walk and cross the street without any impediment.

On one retreat from the intersection from SE 106th Ave / SE Washington St, after the ordinance had been put into effect, I felt a large object strike the inside of my right foot. I believed it was a rock because of the surface area it connected with on my foot and the weight I felt when impact was made. Also, rocks had been consistently thrown throughout the evening and have been for the past 70 days. I could feel the contact from the front of my arch to part of my heel. I was wearing leather boots with a rigid sole and believe if my foot had been more exposed, I would have experienced physical injury. I did not see who threw the rock. It should be noted that another Officer was struck in the upper chest on a different engagement and I heard a protester later yell, "How'd that rock feel?" This made me further believe that the rock throwing was to intentionally contact and physically harm Officers.

Throughout this entire operational period, the chants and messages from this crowd were predominantly vile comments and threats to the life safety of Officers rather than any messaging related to racial equality. Some of the chants included, but were not limited to: "all cops are murders", "fuck 12", "fuck the police", and "all cops are bastards".

Refer to other Officer reports for additional information about this operational period.

Nothing further at this time.

SUBJECT
PROTEST VIDEO

On 08/06/2020 I was assigned to accompany RRT's D Squad to take video during the protests occurring in the area at and near East Precinct.

When the assignment ended I copied the videos I created to two external hard drives, which I provided to Sgt. Dunbar for delivery - one for the lead investigator with detectives, and the second to be given to the Photo Lab to be uploaded for City Attorney review.

Nothing further.
